CAREL opens a new office in Korea

CAREL continues growing through worldwide commercial expansion. In fact, the well known Italian company, headquarters of Carel Group, has recently established a new representative office in South Korea: CAREL HVAC&R Korea Ltd.

The new Carel representative office in Korea will be managed by Shannon Ang, Managing Director of CAREL ASIA and will operate in the Refrigeration, Air Conditioning and Humidification markets.

This allows the successful CAREL partner of over 12 years - CAREL Korea Co Ltd - to focus on the retail sector, a field where CAREL Korea has been very successful over many years. As a result, CAREL Korea Co Ltd has been appointed exclusive affiliated distributor for Retail in Korea.

“This operation represents another step for CAREL globally”, declared Gian Lombello, Group Sales&Marketing Manager. “We are certain that this reorganisation will generate greater opportunities for growth and even more fruitful cooperation in Korea.” ■
